synonym proposal to enhance the search

[illegible]

The image shows a hand-drawn wireframe of a website interface. At the top right, there are two links: "contact us" and "Sign in". In the center, there is a placeholder for the "SITE NAME". Below this, the main heading "Research history" is centered. The content area consists of three rows, each featuring a long string of "x" characters representing text and a rectangular button labeled "search". A thick horizontal bar at the bottom serves as a footer, containing a small logo on the right side.
